Break
10:30 a.m. to 10:45 a.m.

Break
3:30 p.m. to 3:45 p.m.

Community Engagement & Environmental Justice

Investigation, Design, Remediation & Post Construction

Technology & Contaminant-Specific Topics

Project Management

Cleanup Optimization

Contracting Officer Representative (COR) Requirements

New Course

Course scheduled twice

Inspector Credential Requirements

Objectives of the NARPM Training Program

- ❖ Enable RPMs to maintain and develop the knowledge and skills essential to their successful job performance
- ❖ Provide a diverse learning experience that RPMs can attend in a single week at a single location
- ❖ Achieve inter-regional networking among RPMs as well as increase the effectiveness and efficiency through cross-regional communication
- ❖ Showcase regional case studies, current tools and resources available to RPMs
- ❖ Provide training opportunities for other remedial support personnel and tribal and state counterparts to interact with RPMs, and to learn and understand their roles and responsibilities during Superfund responses
- ❖ Ensure consistent training for a national Superfund program

New Courses for 2015

- ❖ Adaptive Management: Applications in EPA-lead Remedial Design and Remedial Action
- ❖ Considerations of Addressing Emerging Contaminants at Superfund Sites
- ❖ Enforcement Focus: Settlement Tools for RPMs
- ❖ Ensuring You Have Defensible Data
- ❖ Everything You Didn't Realize You Needed to Know about Superfund State Contracts
- ❖ What RPMs and Site Managers Really Need to Know about Managing Health and Safety at Hazardous Waste Sites
- ❖ Innovative Characterization and Remediation Technologies for Metals-Contaminated Soils
- ❖ Introduction to the Remedial Acquisition Framework
- ❖ MNA/MNR for Inorganic and Organic Contaminants in Remedial Action Decisions
- ❖ Practical Guide to Compliance with Other Environmental Laws
- ❖ Remedial Action Management under the New Remedial Acquisition Framework
- ❖ Remedial Design/Remedial Action Short Course
- ❖ Evaluation and Remediation of PCB-Contaminated Sites
- ❖ Streamlining of Five-Year Review Reports
- ❖ Superfund Site Data Management
- ❖ USACE Capabilities Discussion

Environmental Justice and Community Engagement Courses

- ❖ Be Prepared: Know What to Say and How to Say It
- ❖ Effective Community Involvement for RPMs
- ❖ Environmental Justice in the Remedy Selection and Design Process
- ❖ Interest – Based Negotiations for RPMs
- ❖ Negotiations: Tactics and Counter-tactics
- ❖ Working with Tribes during Superfund Responses

Cleanup Optimization

- ❖ Best Practices for More Effective Characterization and Remedy Implementation
- ❖ Greener Cleanups Go Mainstream
- ❖ Groundwater High-Resolution Site Characterization
- ❖ Incremental-Composite Soil Sampling
- ❖ Optimization Can Move My Site to Completion – How Does It Work?
- ❖ Seeing in 3-D: Put On These Glasses for Optimized Cleanups

For More Information

For more information, contact Gary Turner, EPA Office of Superfund Remediation and Technology Innovation, at (703) 603-9902 or by email at turner.gary@epa.gov. Visit the NARPM Training Program's website at www.trainex.org/narpm2015.
